

Orbit Digital - RFP Response: Vendor Assessment Platform

Executive Summary

Orbit Digital brings over a decade of experience delivering vendor assessment tools for enterprise procurement teams, with deep domain expertise and a strong reference base.

Proposed Solution & Implementation Approach

We will build on our existing vendor-assessment framework, adapted to the client's criteria model. Integration approach will be finalized collaboratively during discovery; specific integration patterns and API contracts will be confirmed once existing client systems are reviewed.

Timeline, Team Structure, and Milestones

14-week delivery: Weeks 1-4 discovery and framework adaptation, Weeks 5-11 build, Weeks 12-14 UAT and launch. Team of 5, led by a principal consultant with 10+ years in procurement technology.

Price Table with Assumptions

\$260,000 implementation, \$60,000/year ongoing support. Assumes existing framework covers 80% of requirements; remaining 20% scoped as change orders at \$175/hour.

Security, Compliance, and Risk Controls

SOC 2 Type I certified (Type II in progress). Standard encryption at rest and in transit. Access control via role-based permissions. Incident response process exists internally but was not detailed in this response.

Support Model, Relevant Experience, and References

Business-hours support with a 4-hour response SLA. Delivered 8+ vendor assessment platforms across procurement, facilities, and IT sourcing teams over the past decade. Four references available immediately, including two multi-year repeat clients.
